

R-24

March 13-15, 2024, in Odense

Join Us at the Biggest Robotics Event in the Nordics! R-24: The Cutting Edge of Robotics, Automation, and Drones.

R-24 is Denmark's thrilling robotics exhibition, showcasing the latest and most innovative solutions in the industry.

This must-attend event brings together industry pioneers and leading minds in robotics, welcoming participants from all over the globe, from sectors such as construction, manufacturing, agriculture & horticulture, energy, and healthcare.

Dive into an exciting conference programme with keynotes on pressing topics such as AI, the green transition, cybersecurity, new software platforms and the future of the labour market. A strong lineup of keynote speakers and presenters from around the world are ready to explore and shape the future of robotics.

Five Keynotes You Cannot Miss:

Navigating the Future Labour Market and AI: Immerse yourself in an exhilarating exploration of AI's groundbreaking role in reshaping the future work landscape.

AI Has Transformed Robotics, Automation, and Drones...What's Next?: Uncover the immense possibilities as AI redefines the fields of robotics, automation, and drones – setting the stage for a future brimming with untapped opportunities.

Future Sustainable Production with robotics at Grundfos: Witness how innovative practices in robotics and automation are driving a sustainable revolution in production, shaping a greener, more efficient future.

New platforms enabling implementation of robots (software): Discover the transformative power of cutting-edge software platforms, making robotics more accessible and adaptable for businesses, ushering in a new era of manufacturing agility.

Cybersecurity & Robotics, Automation, and Drones: Explore the vital role of cybersecurity measures in safeguarding advanced technologies and witness a live demonstration of the digital defenses against cyber threats.

Speakers:

Liselotte Lyngsø
Founding Partner
in Future Navigator

Ryan Gariepy
Co-founder
and CTO
at OTTO Motors

Peter Christensen
Senior Director,
Head of Technology and
Innovation at Grundfos

Thomas Houden, Director
of Business Development at
Onrobot, and **Anders Billesø
Beck**, VP for Strategy and
Innovation at Universal Robots

Jan Ciechanowicz
Product Security Lead
at Mobile Industrial Robots &
Keld Norman, IT-security
Consultant at Dubex
